

SILTEC

SCREEN X ANTI-RAIN

THE PROFESSIONAL RANGE

DESCRIPTION

SCREEN X improves the visibility and disperses water and snow. It prevents frost, salt and mud from sticking.

SCREEN X leaves a transparent film on the windshield that causes the rain to flow aerodynamically. Thus, it provides optimum visibility and safer driving conditions. It can also be used on rear windows, side windows, exterior rear-view mirrors and headlights.

INSTRUCTIONS

Before applying **SCREEN X**, ensure that the surfaces treated are perfectly clean and dry without greasy or oily traces. Then apply **SCREEN X** with a soft, clean and dry cloth on the outside of the window, covering the entire surface. Apply the product in firm circular movements. Wait a few minutes until a thin veil appears and apply a second product layer to obtain even coverage. Then wipe with a clean dry cloth. Polish with a paper towel until the entire window is transparent.

PRECAUTIONS

Product that can irritate and that is highly flammable.

WARNING: do not apply when there is frost or in bright sunlight. Do not apply onto plastic parts of the vehicle. Keep out of the reach of children. Keep away from flame and all sources of heat. Keep firmly closed when not in use. Do not inhale vapours. Avoid contact with eyes. Eye protection is recommended. If the product comes in contact with eyes or contact lenses, rinse immediately and abundantly with clean water. If swallowed, do not induce vomiting, seek medical attention immediately and present the product container.

NOTE: The information in this data sheet is provided by way of information only and in no way undertakes the responsibility of the manufacturer. Due to the numerous factors that can affect the results, our products are sold with the assumption that users will perform their own tests to determine the suitability of products for their particular purpose.
