

SILTEC

STOPGIVRE DE-ICER

THE PROFESSIONAL RANGE

DESCRIPTION

Immediately defrosts when sprayed on: windshields, windows, locks, hinges, door flanges, cables, joints and any other element frozen with ice.

Acts effectively without staining, without marking and without risk to the equipment treated.

INSTRUCTIONS

Spray on the surface to be de-iced starting with the upper part of the windshield or window. Descend gradually to the bottom.

After applying, if possible, wipe the surface with a cloth then re-spray.

If the ice is thick, repeat this procedure.

WARNINGS

For professional use. Consult the SDS (on request only).

The information in our brochures, letters, reviews and reports is provided to advise you especially regarding testing that has been carried out, with an ongoing concern for objectivity and without any commitment on our part.

PACKAGING

Cardboard box 12 x 500 ml
(aerosol)
